**No Horsing Around** – Jessica, an avid horse enthusiast, realized a dream-come-true with the acquisition of a Megadome structure for her private riding arena. This new MegaDome® is not only sturdy and bright but also a game-changer

for riding in any weather on the east side of Vancouver Island. With open ends, it allows great airflow for a comfortable ride while keeping riders protected from harmful UV rays. It's the ideal setup for the perfect ride!
